

## Alien Chaos

One day, Tom and his father were striding on the street of their new home. Tom's father said, "This place is terribly wonderful! There is a forest right next to us with a peaceful lake!" They walked into the forest and were amazed about the towering trees and the sweet scent of flora. As they stumbled deeper into the forest, it grew dimmer and more ancient by each minute. Occasionally, they would hear a rustle among the dense bushes and the howling of the wind. Tom shuddered as they ventured deeper into the forest.

At last, they arrived at the lake and were flabbergasted by how beautiful it looked and contradicted to the scary woods. As they were sitting on the shore, a shadow loomed above them. They screamed in terror when they saw a ferocious, bear-like alien leaping down from a ghostly UFO. In no time, the alien was upon them and had leapt onto Tom. Tom's father screeched and lunged at the alien, punching its slimy head. Instantly, he was glued onto the alien's head and after kicking, struggling and shouting, he was covered with ooze and was suffocating. Tom shrieked as he was surrounded by darkness. When the alien was satisfied with the luscious taste of Tom, it licked its green, slimy body and dagger-like teeth with its deadly tongue and was sucked back into the UFO and was never seen again.
