

### **A Special Saturday**

**Ingrid Wong**

One day, my best friend, Michelle, and I were baking cookies. Suddenly, my brother barged in and yelled at me. At that moment, Mom came and told my brother to stop, but my brother was too angry to hear her.

In a flash, I remembered I had promised him I would roller skate with him. Luckily, Michelle said she had to go home because she had a piano exam in ten minutes. In the end, I baked cookies with Brother and Mom and then went to the park to roller skate with my brother.

### **A Journal of the Strange Little Duck**

**Yip Sin Ling**

It was in the morning when I realized something really special had happened to me. I found that I had two strong and white wings. Then, I noticed that even my body was pure white. Kenny, my brother, said, “Wow! You look beautiful! I wish I were you!” I felt delightful and danced around the pond happily.

When it was half past eleven, I went to Mother Duck’s home. When I walked in her house, she shouted in surprise, “Wow! Who are you? You are very pretty.”

“Thank you, Mum. I’m Strange Little Duck. See, I’ve grown into a pretty swan!” I said in delight. Then we ate our lunch and talked for one hour.

At a quarter past two, I met two swan friends at Clear Pond. They said, “Wow! You are no longer a strange little duck!” I smiled and nodded my head. Then we played games and swam together.

It was such a special day, and it was the most gleeful day ever.

### **When I Grow Up**

**Jamie See**

When I have time, I like to play zookeeper with all my stuff toys. I need plastic toy food and a plastic toy bathtub to pretend to feed and bathe all my stuff toys. I usually play with my stuff toys after doing all my homework after school. I enjoy playing with my family. I prefer doing this in my bedroom.

I like this hobby because it is fun. This sometimes lets me know more about animals because when I don’t know facts about them, I can search the information on the internet. My hobby makes me happy because when I am upset, I will hug one of stuff toys and I will cheer up. I don’t know why, but it seems there is a connection between the stuff toy and me.

I think I will still enjoy my hobby when I grow up because I love animals no matter what they are, even tigers and lions. I think my hobby can help me to learn a lot about animals. There is an occupation related to my hobby. I want to be a zookeeper when I

grow up. I can take care of animals and make them happy. All I hope is that I can be a zookeeper because I really like to take care of animals very much.

### **My Key to Happiness**

**Megan Ng**

My family always brings me happiness. My dad always tells me stories before I go to sleep. I feel happy when my mum brings me to go shopping, and I feel the love between my little brother and me when he makes me a clay birthday cake for my birthdays. I make my family happy by making cards and presents on their birthdays.

Once, when my little brother was four, he made me a picture of a spinosaurus for a present on my birthday. I liked it very much. I am still keeping it now. It was a wonderful present, for he thought everyone liked dinosaurs as much as him. He loves dinosaurs.

I may be able to be happy, no matter what is going on, if I remember to smile all day long to make others happy. Sometimes people give others flowers, and I like that idea too.

After all, my key to happiness is to be nice and caring and always smile to others.
