1. SOCIAL ENTERPRISES SUMMIT
2. GOOD KITCHEN
3. GOOD LAB
4. DIAMOND CAB (CASE STUDY)

Group 6

Low Chloe-Nicole, Charis Wong , Hazelle Yau ,Jasmin Chan

Overview

Our school has launched a Daily Giving Joyful Service Award Scheme this year to educate us to think more about the community rather than our own interests and academic results. Together with selected Pr. 6 and Pr. 5 students, we, the Junior Prefects, went on a visit to social enterprises in February, 2015. The tour was led by Mrs. E. Dai, Miss E. Poon, Mrs. J. Leung and Miss C. So. The objective of the study tour is to broaden students' horizons and their insights and personal views about different social issues in Hong Kong.

This tour enabled us to think more about our community and what we can do as Hong Kong's future leaders, which is a very valuable and inspirational experience for us. Through this visit, students are not only able to take a look at the various social enterprises but also able to take a peek at the why, what and hows of these enterprises, and most of all, what these enterprises do to contribute to Hong Kong.

On our part, we hope that our sharing in this report will enable others to think of innovative ideas to serve our community. As Henry Drummond said, "Happiness... consists in giving, and in serving others."

VENUE DETAILS:

2. Good Kitchen

- A. Promotes healthy eating culture
- B. Community health education practice collaboration
- C. Focuses on community service by creating more employment opportunities and providing innovative solutions for the needy in our society

3. Good Lab

- A. Hong Kong's first Social Innovation hub
- B. Builds a community of change-makers at their co-working spaces by providing learning programs and experimentation opportunities for the development of innovative ideas

4. Social Enterprise Case Sharing- Diamond Cab

Diamond Cab (HK) Ltd. is a private enterprise offering point-to-point transportation services for wheelchair users. They have 6 barrier-free cabs that allow wheelchair users to board directly and provides a legal and safe means of transportation for wheelchair users and their care-takers. Up to October 2012, they had completed over 27,000 barrier-free trips.
