

# A Picnic

Written by: Chan Tsz Nam

It was a beautiful day in spring. Roy and Anita decided to go on a picnic.

Roy and Anita made some sandwiches themselves and their mother made some lemon tea for the picnic. Next, Mummy showed them a map and taught them how to go to the picnic spot. While they were reading the map, their puppy went into the picnic basket and started eating.

When the children were ready, they picked up the basket and started going. They followed the map and walked to the picnic spot which was a hill near a farm. Once they were there, they strolled around and enjoyed the view.

After an hour, they found a spot to eat their lunch. Oops! When they opened the basket, they were surprised. There was their puppy! The puppy had eaten all of the food that they have brought. At last, they phoned their mummy. Forty-seven minutes later, their mummy came with a new basket of food, so they shared the food together while their puppy was busy chasing a butterfly.
