

My Favourite Season

By Lau Yan Chi

Spring is like a newborn baby. The air is as sweet as chocolate and everything is bright and new. This refreshing season is like a mop, making everything clean. Spring is the start of a new year, all our sins are washed away. Birds chirp new songs every day and all the creatures are happy and friendly.

In spring, it is warm. My birthday is also in spring. My family and I always go to the country park to have a picnic and run around on the damp grass. In the forest, Mr. Oak Tree is swaying gently with his branches as if it were rocking a baby to sleep. The little rabbits and squirrels will run around with me through the woods. At the playground, all the children are happy and excited. We are all active. Occasionally we might see lazy and sleepy people.

I love spring. It is as gentle as a mother, taking care of her baby. I really hope every season is bright and clean like spring.
